BORИ▲HACK

BornHack is an annual 7 day outdoor tent camp where hackers, makers and other people with an interest in technology and society come together to celebrate technology, socialise, learn and **have fun**.

We are preparing BornHack 2020 which will take place from **11th to 18th of August 2020** at our venue on the Danish island of **Funen**. BornHack 2020 will be the fifth anniversary of the event.

We will organise interesting, high quality talks and workshops. But BornHack is a **participatory** event, so we rely on participants and villages to come up with their own ideas and projects as well.

You can keep yourself updated on our website at **https://bornhack.dk** or **http://bornhack7hctgpio.onion**. Remember to check it out frequently for news about the event, ticket sales and speakers. You can also follow us on Twitter using **@bornhax**.

You are welcome to ask questions and show your interest on IRC at **#bornhack** on **irc.baconsvin.org** (**6nbtgccn5nbcodn3.onion**), using TLS on port 6697. Let us know if you have an idea that would be fun, educational, interesting or provocative to do. We also need volunteers for many different areas of the event, our website has more information on the available teams.

We hope you want to be a part of BornHack!

Sincerely
The BornHack Team
